33. Any payment due pursuant to Paragraph 32.a.ii., and 32.d., above, shall be made in the manner set forth in Section IV of this Consent Decree (Civil Penalty), except that the transmittal letter shall also reference that payment is being made pursuant to this Paragraph.

34. All stipulated penalties must be paid within thirty (30) days of the date that Settling Defendant receives a written demand for payment from the United States. Except as provided in Paragraph 33, above, stipulated penalties shall be paid by certified or cashier's check in the amount due, payable to the "Treasurer, United States of America," referencing DOJ No. 90-5-2-1-07823 and USAO file number 2002 V 01275, and shall be delivered to the office of the United States Attorney, Northern District of Ohio, Financial Litigation Unit, United States Courthouse, 801 W. Superior Avenue, Suite 400, Cleveland, OH 44113.

35. Subject to the provisions of Paragraph 32.a., above, all stipulated penalties shall begin to accrue on the day after the date performance is due or on the day a violation occurs, whichever is applicable, and shall continue to accrue until performance is satisfactorily completed or until the violation ceases. Nothing herein shall prevent the simultaneous accrual of separate penalties for separate violations of this Consent Decree, except that when two or more violations are based upon the same noncompliance, the higher stipulated penalty shall apply. Interest shall accrue on overdue penalty payments

(those not made within 30 days of receipt of the written demand for payment from the United States) at the rate established by the Secretary of the Treasury pursuant to 28 U.S.C. § 1961.

36. Penalties shall continue to accrue as provided in accordance with Paragraph 35 during any dispute resolution, with Interest on accrued penalties payable and calculated at the rate established by the Secretary of the Treasury pursuant to 28 U.S.C. § 1961, but need not be paid until the following:

a. If the dispute is resolved by agreement or by a decision of EPA that is not appealed to the Court, accrued penalties determined to be owing, together with accrued Interest, shall be paid to the United States within thirty (30) days of the effective date of the agreement or the receipt of EPA's decision or order;

b. If the dispute is appealed to the Court and the United States prevails in whole or in part, Settling Defendant shall, within sixty (60) days of receipt of the Court's decision or order, pay all accrued penalties determined by the Court to be owing, together with accrued Interest, except as provided in Subparagraph c, below;

c. If the District Court's decision is appealed by any Party, Settling Defendant shall, within fifteen (15) days of receipt of the final appellate court decision, pay all accrued penalties determined to be owing to the United States, together with accrued Interest.

37. Should Settling Defendant fail to pay stipulated penalties and accrued Interest in accordance with the terms of this Consent Decree, the United States shall be

entitled to collect Interest, as set forth in Paragraph 36, above, together with the costs (including attorneys fees) incurred in any action necessary to collect any such stipulated penalties, and Interest.

38. Settling Defendant's payment of stipulated penalties under this Section shall be in addition to any other rights or remedies available to the United States by reason of Settling Defendant's failure to comply with any requirement of this Consent Decree or applicable law.

X. FORCE MAJEURE

39. "Force majeure, " for purposes of this Consent Decree, is defined as any event arising from causes beyond the control of Settling Defendant, its contractors, or any entity controlled by Settling Defendant that delays or prevents the performance of any obligation under this Consent Decree despite Settling Defendant's best efforts to fulfill the obligation. "Best efforts" include using best efforts to anticipate any potential force majeure event and to address the effects of any such event (a) as it is occurring and (b) after it has occurred, such that the delay is minimized to the greatest extent possible. "Force Majeure " does not include Settling Defendant's financial inability to perform any obligation under this Consent Decree.

40. If any event occurs or has occurred that may delay the performance of any obligation under this Consent Decree, as to which Settling Defendant intends to assert a claim of force majeure, Settling Defendant shall provide notice in writing, as provided in Section XVI of this Consent Decree (Notices), within seven (7) days of the time Settling Defendant first knew of, or by the exercise of due diligence should have known of, the event and its likelihood of delaying Settling Defendant's performance of its obligations

under this Consent Decree. Such notification shall include an explanation and description of the reasons for the delay; the anticipated duration of the delay; a description of all actions taken or to be taken to prevent or minimize the delay; a schedule for implementation of any measures to be taken to prevent or mitigate the delay or the effect of the delay; and Settling Defendant's rationale for attributing such delay to a force majeure event. Failure to comply with the above requirements shall preclude Settling Defendant from asserting any claim of force majeure. Settling Defendant shall be deemed to know of any circumstance of which Settling Defendant, its contractors, or any entity controlled by Settling Defendant knew or should have known.

41. Settling Defendant shall have the burden of proving, by a preponderance of the evidence, that each event described in the preceding Paragraph was a force majeure event; that Settling Defendant gave the notice required by the preceding Paragraph; that Settling Defendant took all reasonable steps to prevent or minimize any delay caused by the event; and that any period of delay it claims was attributable to the force majeure event was caused by that event.

42. If the Parties agree that Settling Defendant could not have prevented or mitigated any delay, or anticipated delay, attributable to a force majeure event by the exercise of due diligence, the Parties shall stipulate to an extension of time for Settling Defendant's performance of the affected compliance requirement by a period not exceeding the delay actually caused by such event. In such circumstances, the appropriate modification shall be made pursuant to Section XIX of this Consent Decree (Modification), where the modification is to a term of this Consent Decree or is a material modification of any Appendix to this Consent Decree. In the event the Parties cannot

agree, the matter shall be resolved in accordance with Section XI of this Consent Decree (Dispute Resolution). An extension of time for performance of the obligations affected by a force majeure event shall not, of itself, extend the time for performance of any other obligation.

XI. DISPUTE RESOLUTION

43. Unless otherwise expressly provided for in this Consent Decree, the dispute resolution procedures of this Section shall be the exclusive mechanism to resolve disputes arising under or with respect to this Consent Decree. However, such procedures shall not apply to actions by the United States to enforce obligations of the Settling Defendant that have not been disputed in accordance with this Section.

44. Informal Dispute Resolution. Any dispute which arises under or with respect to this Consent Decree shall first be the subject of informal negotiations. The period of informal negotiations shall not exceed forty-five (45) days from the time Settling Defendant sends the United States a written Notice of Dispute in accordance with Section XVI of this Consent Decree (Notices), unless that period is modified by written agreement. Such Notice of Dispute shall state clearly the matter in dispute. The failure to submit a Notice of Dispute within ten (10) days from the date upon which the issue in dispute arises waives Settling Defendant's right to invoke dispute resolution under this Section.

45. Formal Dispute Resolution.

a. If the Parties cannot resolve a dispute by informal negotiations pursuant to the preceding Paragraph, then the position advanced by the United States shall be considered binding unless, within twenty-one (21) days after the

conclusion of the informal negotiation period, Settling Defendant invokes formal dispute resolution procedures by serving on the United States, in accordance with Section XVI of this Consent Decree (Notices), a written Statement of Position on the matter in dispute, including any supporting factual data, analysis, opinion, or documentation.

b. Within 21 days after receipt of Settling Defendant's Statement of Position, the United States will serve on Settling Defendant its Statement of Position, including any supporting factual data, analysis, opinion or documentation. Within 15 days after receipt of the United States' Statement of Position, Settling Defendant may submit a Reply.

c. An administrative record of the dispute shall be maintained by EPA and shall contain all statements of position, including supporting documentation, submitted pursuant to this Section. That record shall constitute the administrative record upon which the matter in dispute is to be resolved.

d. If Settling Defendant ultimately appeals to the Court to resolve the dispute, the Court shall determine the applicable standard and scope of review, in accordance with Paragraph 46.c., below.

46. Resolution of Disputes.

a. The Director of the Air and Radiation Division, EPA Region 5, will issue a final decision resolving the matter in dispute. Where the dispute pertains to the performance of the Compliance Requirements under Section V of this Consent Decree or performance of the SEP under Section VII, or is otherwise accorded review on the administrative record under applicable principles of

administrative law, the decision shall be upon the administrative record maintained by EPA pursuant to Paragraph 45.c., above. The decision of the Air and Radiation Division Director shall be binding upon Settling Defendant, subject only to the right to seek judicial review, in accordance with Subparagraph b, below.

b. The decision issued by EPA under Subparagraph a, above, shall be reviewable by this Court upon a motion filed by Settling Defendant and served upon the United States within thirty (30) days of receipt of EPA's decision. In addition to containing the supporting factual data, analysis, opinion, and documentation upon which Settling Defendant relies, the motion shall describe the history of the matter in dispute, the relief requested, and any schedule within which the dispute must be resolved for orderly implementation of the Consent Decree, as well as Settling Defendant's position on whether the dispute should be resolved on the administrative record. The United States' response will be filed within 30 days of the filing of Settling Defendant's motion. Settling Defendant may file a reply within 14 days of the United States' response.

c. In any judicial proceeding pursuant to Subparagraph b, above, that concerns the performance of the Compliance Requirements under Section V of this Consent Decree or performance of the SEP under Section VII, or that is otherwise accorded review on the administrative record under applicable principles of administrative law, judicial review shall be on the administrative record compiled in accordance with Paragraph 45, above. The United States reserves the right to argue that its position is reviewable only on the

administrative record and must be upheld unless arbitrary and capricious or otherwise not in accordance with law. In any other dispute, Settling Defendant shall bear the burden of demonstrating that its position complies with the Consent Decree and that it is entitled to relief under applicable principles of law.

47. The invocation of dispute resolution procedures under this Section shall not extend, postpone, or affect in any way any obligation of Settling Defendant under this Consent Decree, not directly in dispute, unless the United States or the Court agrees otherwise. Stipulated penalties with respect to the disputed matter shall continue to accrue from the first day of noncompliance, but payment shall be stayed pending resolution of the dispute as provided in Paragraph 36, above. In the event that Settling Defendant does not prevail on the disputed issue, stipulated penalties shall be assessed and paid as provided in Section IX (Stipulated Penalties).

XII. RIGHT OF ENTRY

48. The United States and its representatives, including attorneys, contractors, and consultants, shall have the right of entry to any facility covered by this Consent Decree, at all reasonable times, upon presentation of credentials, to:

- a. monitor the progress of activities required under this Consent Decree;
- b. verify any data or information submitted to the United States in accordance with the terms of this Consent Decree;
- c. obtain samples and, upon request, splits of any samples taken by Settling Defendant or its representative, contractors, or consultants; and
- d. assess Settling Defendant's compliance with this Consent Decree.

49. This Consent Decree in no way limits or affects any right of entry and inspection held by the United States pursuant to applicable federal or state laws, regulations, or permits.

XIII. FAILURE OF COMPLIANCE

50. The United States does not, by its consent to the entry of this Consent Decree, warrant or aver in any manner that Settling Defendant's compliance with any aspect of this Consent Decree will result in compliance with provisions of the Act and the Ohio SIP and Pennsylvania SIP. Notwithstanding the United States' review and approval of any documents submitted to it by Settling Defendant pursuant to this Consent Decree, Settling Defendant shall remain solely responsible for compliance with the terms of the Act, the Ohio SIP, the Pennsylvania SIP and this Consent Decree.

51. This Consent Decree is not a permit. Compliance with the terms of this Consent Decree does not guarantee compliance with applicable federal, state, or local laws or regulations. The compliance measures set forth herein do not relieve Settling Defendant from any obligation to comply with other federal or state requirements under the Act, including Settling Defendant's obligations under the Ohio SIP.

52. Unless expressly stated otherwise in this Consent Decree, in any instance where otherwise applicable law or this Consent Decree requires Settling defendant to secure a permit to authorize construction or operation of any device, including all preconstruction, construction, and operating permits required under state law, Settling Defendant shall make such application in a timely manner. The EPA will use its best efforts, to expeditiously review or insure the expeditious review, as

applicable, of all permit applications submitted by Settling Defendant in order to meet the requirements of this Consent Decree.

XIV. EFFECT OF SETTLEMENT/RESERVATION OF RIGHTS

53. This Consent Decree resolves the civil claims of the United States for the violations alleged in the Complaint filed in this action through the date of lodging of this Consent Decree.

54. This Consent Decree shall not be construed to prevent or limit the right of the United States to obtain penalties or injunctive relief under the Act, or under other federal or state laws, regulations, or permit conditions, except as expressly specified herein.

55. Settling Defendant is responsible for achieving and maintaining complete compliance with all applicable federal, State and local laws, regulations, and permits; and Settling Defendant's compliance with this Consent Decree shall be no defense to any action commenced pursuant to said laws, regulations, or permits.

56. This Consent Decree does not apply to any claims of alleged criminal liability.

57. In any subsequent administrative or judicial proceeding initiated by the United States for injunctive relief or civil penalties relating to the facilities and alleging claims not covered by the Complaint in this action, Settling Defendant shall not assert any defense or claim based upon principles of waiver, res judicata, collateral estoppel, issue preclusion, claim preclusion, or claim splitting, or any other defense based upon the contention that the claims raised by Plaintiff in the subsequent proceeding were brought, or should have been brought in the instant case; provided, however, that nothing in this

Paragraph is intended to, or shall affect the validity of Paragraph 53 of this Consent Decree.

58. This Consent Decree does not limit or affect the rights of Settling Defendant or of the United States against any third parties not party to this Consent Decree, nor does it limit the rights of third parties not party to this Consent Decree, against Settling Defendant.

59. This Consent Decree shall not be construed to create rights in, or grant any cause of action to, any third party not party to this Consent Decree.

60. The United States reserves any and all legal and equitable remedies available to enforce the provisions of this Consent Decree, except as expressly stated herein.

XV. COSTS

61. Each of the Parties shall bear its own costs of litigation of this action, including attorneys fees, except as provided in Paragraphs 10 and 37, above.

Termination, stating that Settling Defendant has satisfied those requirements, together with all necessary supporting documentation.

68. Following receipt by the United States of Settling Defendant's Request for Termination under Paragraph 67, above, the Parties shall confer informally concerning the Request and any disagreement that the Parties may have as to whether Settling Defendant has satisfactorily complied with the requirements for termination of this Consent Decree. If the United States agrees that the applicable requirements of the Decree may be terminated, the Parties shall submit, for the Court's approval, a joint stipulation terminating the applicable requirements of the Decree.

69. If the United States does not agree that the applicable requirements of the Decree may be terminated, Settling Defendant may invoke Dispute Resolution under Section XI of this Decree. However, Settling Defendant shall not seek Dispute Resolution of any dispute regarding termination under Section XI of this Consent Decree until thirty (30) days after service of its Request for Termination.
